

Quality, Health, Safety and Environment (QHSE) Policy

AHM Marine L.L.C (AMHC) Management is committed to Provide Marine and Catering service that meets and exceeds the customer requirements with the aim of enhancing customer satisfaction. Our guiding principle mandates that every project is executed in line with local requirements and regulations and to the highest of standards. Hence, we have stringent health and safety rules to implement this golden commitment practically.

We shall:

- Provide consistent quality of service to meet and exceed the customer requirement.
- Delivering quality products and services on time to the customers
- Establish, improve and realize the policies and measurable objectives and plans.
- Recognize, evaluate, and manage AHMC's EHS risks through the implementation of a comprehensive Integrated Management System;
- Perform every aspect of our business in compliance with applicable legal laws, regulations and other internationally recognised industry standards where applicable and relevant;
- Strive to eliminate any foreseeable hazards which may result in damage to environment, accidents and personal injury/ illnesses or property damage;
- Provide clean, healthy, and safe work environment through prevention of ill health, injury and environmental pollution, arising out of the activities.
- Introduce programs which will promote employee health and well-being;
- Demonstrate the involvement and support of top management in all QHSE endeavours;
- Demonstrate the consultation and participation of employees in Hazard identification, Revision of risk register and Hazard communication in relation with OS&H risks and opportunities.
- Communicate this policy to our employees and our stakeholders
- Reviewing and revising this policy on a continual basis, at least annually and as necessary, to ensure its relevance and appropriateness to our organization.
- Optimum utilization and conservation of energy resources through reduces, recycle and reuse and reprocess methodologies and minimize waste generation.
- To protect the environment and the associated health and safety of employees, customers, suppliers, and the public, the best possible QHSE record can only be achieved through the cooperative effort of all.
- Integrate Management system in all activities with focus on sustainable growth and continual development in effectiveness of the established integrated management system

Consistent with this policy, we will establish, document, implement, maintain and continually improve our Quality, Health, Safety Environmental management systems that are consistent with the requirements of the international standards ISO 9001: 2015, ISO 45001:2018 and ISO 14001:2018.
